UNLOCK YOUR POTENTIAL FOR COMMERCIAL SUCCESS: ASSET & PORTFOLIO STRATEGY

Make your next move the right move

When it comes to introducing new assets into your pipeline, having a clear understanding of their clinical and commercial potential, as well as the competitive landscape and market dynamics, is crucial. This is where we come in.

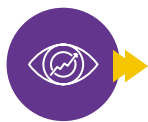

Access the breadth and depth of insights you need to prioritise opportunities and amplify commercial success. Our solutions provide a comprehensive range of insights to help you prioritise opportunities and achieve commercial success. By combining financial data, product attributes, consensus forecasts, and market knowledge, we empower you to bring the right products to the right market in the most effective way.

HERE IS HOW WE MAKE A DIFFERENCE FOR YOU:

▶ MARKET SIZING AND FORECASTING

Track disease stages, sub-populations, and treatment flow, allowing you to benchmark your forecasts against potential and addressable market data. Estimate drug-treated populations with our bottom-up forecasting to understand population evolution, validate investments, and identify growth opportunities.

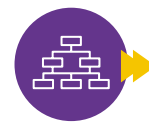

KEY QUESTIONS WE HELP ANSWER INCLUDE:

▶ What is the total addressable patient population?

▶ What market share could your asset capture?

▶ How many competitors are in a given market? What is their market share?

▶ COMMERCIAL OPPORTUNITY ASSESSMENT

Whether licensing a drug, acquiring a company, or forming a partnership, clarity on the market and a roadmap to success are crucial. Gain insights into company financials, product attributes, consensus forecasts, and market knowledge, to prioritise assets for commercial success. Assess present and future asset values, identify market opportunities and unmet needs, and evaluate ROI.

KEY QUESTIONS WE HELP ANSWER INCLUDE:

▶ What are the present and future values of an asset?

▶ What is the opportunity and potential for this indication? What's the unmet need?

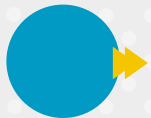

▶ What's the ROI on an R&D investment?

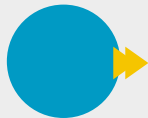

▶ INDICATION PRIORITISATION AND STRATEGY

Optimise resource allocation by selecting indications based on market potential and strategic fit. Understand the opportunities and challenges of each indication, streamline your R&D efforts, and prioritise initiatives with the highest chance of success.
